

Plugins

The theme supports and was tested with some popular plugins. To manage plugins go to the **Plugins** section in the Dashboard. You are able to enable, disable, delete and update plugins there. The theme is able to work properly **without** any of them though.

List of supporting and tested plugins:

King Addons – free, lightweight, super-fast Elementor addons that do not affect website performance.

Breadcrumb NavXT – adds breadcrumb navigation showing the visitor's path to their current location.

Checkout Manager for WooCommerce – manages WooCommerce Checkout, an advanced way.

Classic Editor – disables Gutenberg page builder, enables the WordPress classic editor and the old-style Edit Post screen with TinyMCE, Meta Boxes, etc., supports the older plugins that extend this screen.

Contact Form 7 – contact form plugin.

Elementor – drag and drop page builder.

Envato Market – WordPress Theme & Plugin management for the Envato Market.

MC4WP: Mailchimp for WordPress – adds various highly effective sign-up methods to your site.

Smart Slider 3 – all-in-one responsive slider solution.

WooCommerce [required plugin for a store functionality] – an eCommerce toolkit that helps you sell anything.

Theme Updates

To keep theme up to date you can setup Envato Market plugin, it will periodically check for updates of WordPress themes and plugins purchased from ThemeForest & CodeCanyon. Go to **Envato Market** section to make a quick setup.

envato market 2.0.6

Welcome!

This plugin can install WordPress themes and plugins purchased from ThemeForest & CodeCanyon by connecting with the Envato Market API using a secure OAuth personal token. Once your themes & plugins are installed WordPress will periodically check for updates, so keeping your items up to date is as simple as a few clicks.

Find out more at envato.com.

Settings Help

Getting Started (Simple)

This area enables WordPress Theme & Plugin updates from Envato Market. Read more about how this process works at envato.com.

Please follow the steps below:

1. Generate an Envato API Personal Token by [clicking this link](#).
2. Name the token eg "My WordPress site".
3. Ensure the following permissions are enabled:
 - View and search Envato sites
 - Download your purchased items
 - List purchases you've made
4. Copy the token into the box below.
5. Click the "Save Changes" button.
6. A list of purchased Themes & Plugins from Envato Market will appear.

Token

Enter your Envato API Personal Token.

Single Item Tokens (Advanced)

Add Envato Market themes & plugins using multiple OAuth tokens. This is especially useful when an item has been purchased on behalf of a third-party. This works similarly to the global OAuth Personal Token, but for individual items and additionally requires the Envato Market item ID.

Warning: These tokens can be revoked by the account holder at any time.
